

MSN 1734 (M+F) Amendment 7

Approval of Marine Equipment (EC Notified Bodies)

Notice to all Manufacturers, Shipbuilders, Shipowners, Ship Operators and Managers, Designers and Marine Consultants, Masters and Officers of Merchant Ships, Skippers of Fishing Vessels and Owners of Yachts and Pleasure Craft

This Notice amends Merchant Shipping Notice No. MSN 1734 (M+F) and revokes MSN 1734 (M+F) Amendment 6

PLEASE NOTE:-

Where this document provides guidance on the law it should not be regarded as definitive. The way the law applies to any particular case can vary according to circumstances - for example, from vessel to vessel and you should consider seeking independent legal advice if you are unsure of your own legal position.

Summary

The Marine Equipment Directive ("MED") enhances safety at sea and the prevention of marine pollution, through the uniform application of international instruments relating to marine equipment for which EC type approval safety certificates are issued. The MED is implemented in UK law by the Merchant Shipping (Marine Equipment) Regulations 1999 and Merchant Shipping Notice MSN 1734.

This Notice contains a new Annex A.1 to Merchant Shipping Notice MSN 1734. The new Annex A.1 updates the international standards used as a basis for type approval for marine equipment. It also provides, as set out in the footnotes to each section of the Annex, for transitional arrangements for equipment manufactured before 30 November 2013. As provided for in Commission Directive 2012/32/EU, these transitional provisions apply until 30 November 2015.

Key Points:-

- This Notice further amends MSN 1734 (M+F), and revokes and replaces MSN 1734 (M+F) Amendment 6. It has effect from 30 November 2013.
- This Notice implements Commission Directive 2012/32/EU of 25 October 2012.
- This Notice updates the United Kingdom's designated Notified Body contact list.

1. Introduction

- 1.1 The Merchant Shipping (Marine Equipment) Regulations 1999 (SI 1999 No 1957, amended by S.I. 2009 No. 2021) ("the Regulations") provide for the "type approval" of marine equipment, of a safety or pollution prevention nature, for use on board United Kingdom

ships, and on board other ships as set out in regulation 4 of those Regulations. The Regulations, together with Merchant Shipping Notice MSN 1734 (M+F)) implement Council Directive 96/98/EC of 20 December 1996 on Marine Equipment (Official Journal No. L315, 25.11.98, p.14) ("the MED").

2. Amendments to Directive and to MSN 1734 (M+F) Annex A.1

2.1 In response to further changes to the testing standards developed by those organisations listed in Article 2(n) of the MED, the European Commission issued Directive 2012/32/EU amending the MED (O.J. No. L 312/1, 10.11.2012). This amending Directive, which is required to be applied by Member States of the European Union from 30 November 2013, makes two provisions:

(a) Article 1 and the Annex to the Directive revoke and replace Annex A to the MED.

(b) Article 2 of the Directive provides that equipment manufactured before 30 November 2013, in accordance with the type-approval procedures in place at its time of manufacture, can continue to be placed on the market and on board a ship for the two year period until 30 November 2015.

2.2 On 30 November 2013 Annex A.1 to MSN 1734 is revoked and replaced by Annex A to this Merchant Shipping Notice. This replacement of Annex A.1 implements in UK law as from that date the revocation and replacement of Annex A.1 to the MED.

2.3 On 30 November 2013 the transitional arrangements set out in Article 2 of the Directive are implemented in UK law by the following provisions in Annex A.1 to this Merchant Shipping Notice. These transitional arrangements are created in respect of equipment listed in the new Annex A.1 which is newly listed, or which formerly appeared in Annex A.2 of the MED.

2.3. (1) Where ****Trans** is marked against an item number in Annex A, the equipment need not satisfy the otherwise applicable standards in circumstances where the conditions in either paragraph (2) or (3) apply.

2.3. (2) In respect of equipment placed on the market, supplied for use or exposed for supply within the UK on or before 30 November 2015, the conditions are that the equipment was manufactured in accordance with the procedures for type-approval in force in a member State immediately before 30 November 2013.

2.3 (3) In respect of equipment placed on or before 30 November 2015 on board a ship the relevant safety certificate of which was issued by or on behalf of a member State in accordance with the relevant international convention, the condition is that the equipment was manufactured in accordance with the procedures for type approval in force in a member State immediately before 30 November 2013.

Note: These conditions relate to transitional provision in Directive 2012/32/EU and are relevant for the purposes of the Merchant Shipping (Marine Equipment) Regulations 1999 as amended by the Merchant Shipping (Marine Equipment) (Amendment) Regulations 2009.

2.4 On 30 November 2013 MSN 1734 (M+F) Amendment 6 is revoked.

3. Update to UK designated EC Notified Body listing.

3.1 Annex 1 of this MSN contains an updated list of the UK's designated EU Notified Bodies. The list in Annex 1 replaces paragraph 4 to MSN 1734 (M+F) and revokes MSN 1734 Amendment 6, as from 30 November 2013.

3.2 A listing of notified bodies designated by EU Member States and the EFTA countries (EEA Members) is available on the Notified Bodies co-ordination group (MarED) website www.mared.org.

3.3 For equipment not listed in the amended Annex A.1 which requires to be type approved, reference should be made to MSN 1735 (as amended from 30 November 2013 by Amendment 7 to that MSN), or contact the MCA at the address given in the More Information section.

LIST OF UK DESIGNATED EU NOTIFIED BODIES

The Notified Bodies are specified as those bodies which may undertake type approval of the product or production range of equipment listed in Annex A.1. For details of specific procedures, modules and equipment the Notified Body has been authorised to carry out by the United Kingdom, the relevant Notified Body must be contacted.

Annex A

List of acronyms used

A.1, Amendment 1 concerning Standard Documents other than IMO.

A.2, Amendment 2 concerning Standard Documents other than IMO.

AC, Amending Corrigendum concerning Standard Documents other than IMO.

CAT, Category for radar equipment as defined in section 1.3 of IEC 62388 (2007)

Circ., Circular.

COLREG, International Regulations for Preventing Collisions at Sea.

COMSAR, IMO's Sub-Committee on Radiocommunications and Search and Rescue.

EN, European Standard.

ETSI, European Telecommunication Standardisation Institute.

FSS, International Code for Fire Safety Systems.

FTP, International Code for Application of Fire Test Procedures.

HSC, High Speed Craft Code.

IBC, International Bulk Chemical Code.

ICAO, International Civil Aviation Organization.

IEC, International Electro-technical Commission.

IMO, International Maritime Organization.

ISO, International Standardisation Organisation.

ITU, International Telecommunication Union.

LSA, Life saving appliance.

MARPOL, International Convention for the Prevention of Pollution from Ships.

MEPC, Marine Environment Protection Committee

MSC, Maritime Safety Committee.

NOx, Nitrogen Oxides.

SOLAS, International Convention for the Safety of Life at Sea.

SOx, Sulphur Oxides.

Reg., Regulation.

Res., Resolution.

ANNEX A.1: EQUIPMENT FOR WHICH DETAILED TESTING STANDARDS ALREADY EXIST IN INTERNATIONAL INSTRUMENTS

Notes applicable to the whole of Annex A.1

a) General: in addition to the testing standards specifically mentioned, a number of provisions, which must be checked during type-examination (type approval) as referred to in the modules for conformity assessment in Annex B, are to be found in the applicable requirements of the international conventions and the relevant resolutions and circulars of the IMO.

b) Column 1: Items where transitional arrangements apply are marked ***Trans** or ****Trans** and appropriate footnote applies

c) Column 5: Where IMO Resolutions are cited, only the testing standards contained in relevant parts of the Annexes to the Resolutions are applicable and exclude the provisions of the Resolutions themselves.

d) Column 5: International conventions and testing standards apply in their up-to-date version. For the purpose of identifying correctly the relevant standards, test reports, certificates of conformity and declarations of conformity shall identify the specific testing standard applied and its version.

e) Column 5: Where two sets of identifying standards are separated by “or”, each set fulfils all the testing requirements to meet IMO Performance Standards; thus testing to one of these sets is sufficient to demonstrate compliance with the requirements of the relevant International Instruments. Conversely, when other separators (comma) are used all the listed references apply.

f) Column 6: Where module H appears, module H plus design-examination certificate is to be understood.

g) The requirements laid down in this annex shall be without prejudice to carriage requirements in the international conventions.

Commission Directive 2012/32/EU of 25 October 2012 amending Council Directive 96/98/EC on marine equipment

Annex A.1 - Equipment for which detailed testing standards already exist in international instruments

1. Life-saving appliances

4. Navigation equipment

Notes applicable to section 4: Navigation equipment.

Column 5:

IEC 61162 series refer to the following reference standards for Maritime navigation and radiocommunication equipment and systems - Digital interfaces:

- a) IEC 61162-1 ed4.0 (2010-11) - Part 1: Single talker and multiple listeners
- b) IEC 61162-2 ed1.0 (1998-09) - Part 2: Single talker and multiple listeners, high-speed transmission
- c) IEC 61162-3 ed1.1 Consol. with am1 (2010-11) - Part 3: Serial data instrument network
 - IEC 61162-3 ed1.0 (2008-05) - Part 3: Serial data instrument network
 - IEC 61162-3-am1 ed1.0 (2010-06) Amendment 1 - Part 3: Serial data instrument network
- d) IEC 61162-400 ed1.0 (2001-11) - Part 400: Multiple talkers and multiple listeners - Ship systems interconnection - Introduction and general principles
 - IEC 61162-401 ed1.0 (2001-11) - Part 401: Multiple talkers and multiple listeners - Ship systems interconnection - Application profile
 - IEC 61162-402 ed1.0 (2005-09) - Part 402: Multiple talkers and multiple listeners - Ship systems interconnection - Documentation and test requirements
 - IEC 61162-410 ed1.0 (2001-11) - Part 410: Multiple talkers and multiple listeners - Ship systems interconnection - Transport profile requirements and basic transport profile
 - IEC 61162-420 ed1.0 (2001-11) - Part 420: Multiple talkers and multiple listeners - Ship systems interconnection - Companion standard requirements and basic companion standards
 - IEC 61162-450 ed1.0 (2011-06) - Part 450: Multiple talkers and multiple listeners - Ethernet interconnection

EN 61162 series refer to the following reference standards for Maritime navigation and radiocommunication equipment and systems - Digital interfaces:

- a) EN 61162-1 (2011) - Part 1: Single talker and multiple listeners
- b) EN 61162-2 (1998) - Part 2: Single talker and multiple listeners, high-speed transmission
- c) EN 61162-3 (2008) - Part 3: Serial data instrument network
 - EN 61162-3-am1 (2010) Amendment 1 - Part 3: Serial data instrument network
- d) EN 61162-400 (2002) - Part 400: Multiple talkers and multiple listeners - Ship systems interconnection - Introduction and general principles
 - EN 61162-401 (2002) - Part 401: Multiple talkers and multiple listeners - Ship systems interconnection - Application profile
 - EN 61162-402 (2005) - Part 402: Multiple talkers and multiple listeners - Ship systems interconnection - Documentation and test requirements
 - EN 61162-410 (2002) - Part 410: Multiple talkers and multiple listeners - Ship systems interconnection - Transport profile requirements and basic transport profile
 - EN 61162-420 (2002) - Part 420: Multiple talkers and multiple listeners - Ship systems interconnection - Companion standard requirements and basic companion standards
 - EN 61162-450 (2011) - Part 450: Multiple talkers and multiple listeners - Ethernet interconnection

5. Radiocommunication equipment

Notes applicable to section 5: Radiocommunication equipment.

Column 5: In case of conflicting requirements between IMO MSC/Circ.862 and the product testing standards, the IMO MSC/Circ.862 requirements shall take precedence.

Column 5:

IEC 61162 series refer to the following reference standards for Maritime navigation and radiocommunication equipment and systems - Digital interfaces:

- a) IEC 61162-1 ed4.0 (2010-11) - Part 1: Single talker and multiple listeners
- b) IEC 61162-2 ed1.0 (1998-09) - Part 2: Single talker and multiple listeners, high-speed transmission
- c) IEC 61162-3 ed1.1 Consol. with am1 (2010-11) - Part 3: Serial data instrument network
 - IEC 61162-3 ed1.0 (2008-05) - Part 3: Serial data instrument network
 - IEC 61162-3-am1 ed1.0 (2010-06) Amendment 1 - Part 3: Serial data instrument network
- d) IEC 61162-400 ed1.0 (2001-11) - Part 400: Multiple talkers and multiple listeners - Ship systems interconnection - Introduction and general principles
 - IEC 61162-401 ed1.0 (2001-11) - Part 401: Multiple talkers and multiple listeners - Ship systems interconnection - Application profile
 - IEC 61162-402 ed1.0 (2005-09) - Part 402: Multiple talkers and multiple listeners - Ship systems interconnection - Documentation and test requirements
 - IEC 61162-410 ed1.0 (2001-11) - Part 410: Multiple talkers and multiple listeners - Ship systems interconnection - Transport profile requirements and basic transport profile
 - IEC 61162-420 ed1.0 (2001-11) - Part 420: Multiple talkers and multiple listeners - Ship systems interconnection - Companion standard requirements and basic companion standards

— IEC 61162-450 ed1.0 (2011-06) - Part 450: Multiple talkers and multiple listeners - Ethernet interconnection

EN 61162 series refer to the following reference standards for Maritime navigation and radiocommunication equipment and systems - Digital interfaces:

- a) EN 61162-1 (2011) - Part 1: Single talker and multiple listeners
- b) EN 61162-2 (1998) - Part 2: Single talker and multiple listeners, high-speed transmission
- c) EN 61162-3 (2008) - Part 3: Serial data instrument network
 - EN 61162-3-am1 (2010) Amendment 1 - Part 3: Serial data instrument network
- d) EN 61162-400 (2002) - Part 400: Multiple talkers and multiple listeners - Ship systems interconnection - Introduction and general principles
 - EN 61162-401 (2002) - Part 401: Multiple talkers and multiple listeners - Ship systems interconnection - Application profile
 - EN 61162-402 (2005) - Part 402: Multiple talkers and multiple listeners - Ship systems interconnection - Documentation and test requirements
 - EN 61162-410 (2002) - Part 410: Multiple talkers and multiple listeners - Ship systems interconnection - Transport profile requirements and basic transport profile
 - EN 61162-420 (2002) - Part 420: Multiple talkers and multiple listeners - Ship systems interconnection - Companion standard requirements and basic companion standards
 - EN 61162-450 (2011) - Part 450: Multiple talkers and multiple listeners - Ethernet interconnection

Note*

(1) Where *Trans is marked against an Item number, the equipment need not satisfy the otherwise applicable standards in circumstances where the conditions in either paragraph (2) or (3) apply.

(2) In respect of equipment placed on the market, supplied for use or exposed for supply within the UK on or before 5 October 2014, the conditions are that the equipment was manufactured in accordance with the procedures for type-approval in force in a member State immediately before 5 October 2012.

(3) In respect of equipment placed on or before 5 October 2014 on board a ship the relevant safety certificate of which was issued by or on behalf of a member State in accordance with the relevant international convention, the condition is that the equipment was manufactured in accordance with the procedures for type approval in force in a member State immediately before 5 October 2012.

These conditions relate to transitional provision in Directive 2011/75/EC and are relevant for the purposes of the Merchant Shipping (Marine Equipment) Regulations 1999 as amended by the Merchant Shipping (Marine Equipment) (Amendment) Regulations 2009.

Note **

(1) Where ****Trans** is marked against an Item number in Annex A, the equipment need not satisfy the otherwise applicable standards in circumstances where the conditions in either paragraph (2) or (3) apply.

(2) In respect of equipment placed on the market, supplied for use or exposed for supply within the UK on or before 30 November 2015, the conditions are that the equipment was manufactured in accordance with the procedures for type-approval in force in a member State immediately before 30 November 2013.

(3) In respect of equipment placed on or before 30 November 2015 on board a ship the relevant safety certificate of which was issued by or on behalf of a member State in accordance with the relevant international convention, the condition is that the equipment was manufactured in accordance with the procedures for type approval in force in a member State immediately before 30 November 2013.

Note: These conditions relate to transitional provision in Directive 2012/32/EU and are relevant for the purposes of the Merchant Shipping (Marine Equipment) Regulations 1999 as amended by the Merchant Shipping (Marine Equipment) (Amendment) Regulations 2009.
